Slate

E03 FABRICS

ARCTIC

GRADE 10
100% Polyester
Cleaning Code: WS
Martindale: 40,000cycles

Features a tight diagonal twill.
Performance Finish: CO,water-repellency

Coal Snow Wolf

KEY LARGO

GRADE 20
100% Polyester
Cleaning Code: W
Wyzenbeek: 40,000cycles

High performance construction and weave.

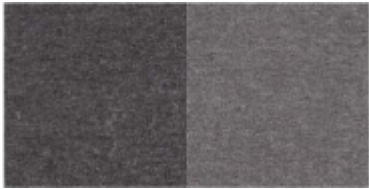

Almond Anthracite Denim Smoke Teal

MILA

GRADE 20
100% Polyester
Cleaning Code: W
Wyzenbeek: 20,000cycles

Mila has a soft feel that resembles the texture of woven wool, while maintaining a high-performance construction and weave from the inclusion of synthetic yarns.

Grey Silver

E03 FABRICS

VALLEY

GRADE 20

100% Polyester

Cleaning Code: WS

Martindale: 35,000cycles

Features a dobby weave, with corduroy look and feel.

Blossom

Cream

Earth

Stone

AVA

GRADE 30

100% Polyester

Cleaning Code: WS

Martindale 70,000cycles

Composed of a mix of natural and synthetic yarns. It is soft to the touch, resembling the texture of woven wool. The irregularities in the weaving are called "slubs," resulting from the varying thicknesses of spun yarns.

Camel

Cloud

Haze

Pepper

JET

GRADE 30

100% Polyester – Trevira Cs

Cleaning Code: W

Martindale: 40,000cycles

A classic micro basket weave that achieves an intriguing colour depth by mixing two colours on the weft and warp. A commercial-grade fabric, Jet is inherently flame retardant.

Ash

PANAMA

GRADE 30

100% Polyester

Cleaning Code: D

Martindale: 40,000cycles

Using a high-performance basket-weave construction, Panama combines two unique colours on the weft and warp.

Anthracite

Green

Grey

Light Blue

Natural

Zinc

VITORIA

GRADE 30

100% Polyester

Cleaning Code: W

Martindale: >40,000cycles

A chenille, the fluffy yarn used in its weaving process results in extraordinary softness. The use of unconventional coloured yarns interwoven with neutrals results in a dynamic surface and color.

Basalt

Granite

Mica

E03 FABRICS

ASPEN

GRADE40

Rayon 52%, Linen 22%, Polyester 15%, Cotton 11%

Cleaning Code: S

Martindale:40,000 cycles

Aspen resembles the natural beauty of linen textiles. The irregularities in the weaving are called "slubs," enhancing the textural complexity of the fabric. The fabric softens its hand overtime, a characteristic of linen.

Dusk

Flax

Pebble

Mist

Sage

LEE

GRADE40

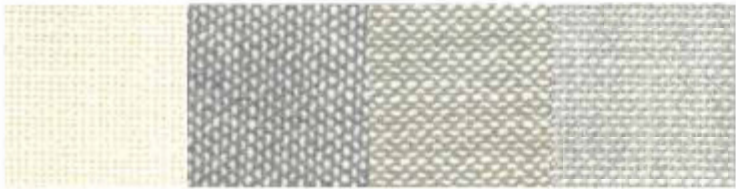

Rayon 52%, Linen 22%, Polyester 15%, Cotton 11%

Cleaning Code: S

Martindale:40,000 cycles

A high-performance construction and finish. A plain weave thatboasts durability and cleanability.

Performance Finish: C6, water+oil repellency

Cotton

Dove

Flax

Silver

HERRINGBONE

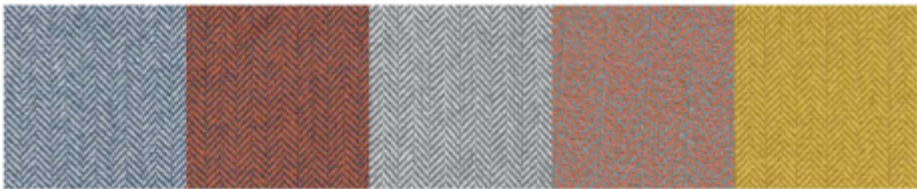

GRADE40

100%Polyester – Trevira Cs

Cleaning Code: W

Martindale:40,000 cycles

Herringbone is a classic textile weaving technique also referrea to as "broken twill." The use of patterns like Herringbone is a great way to create textural depth in a room.

Azure

Coral

Fin

Jelly

Sun

E03 FABRICS

LINEN

GRADE40

100%Linen

Cleaning Code: D

Martindale: 12,000cycles

Linen uses two tones of 100% Belgian linen flax in its basket-weave construction, highlighting the natural beauty of linen textiles.

Available on slipcover frames only (Cello Beds, B2C Slipcover Beds, Chiara Chair, Pillows, PALLI Sunday)

Oatmeal

CODA

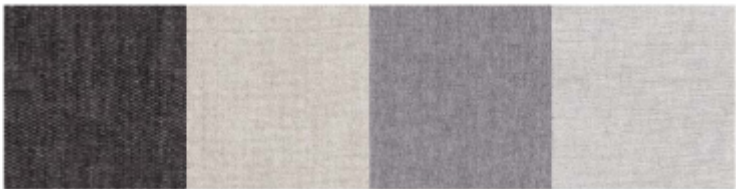

GRADE 50

55% Cotton,40% Viscose, 5% Polyester

Cleaning Code: w

Martindale:40,000 cycles

The fluffy chenille yarn used in the weaving process results in extraordinary softness. Unconventional colored yarns interwoven with neutrals, results in a dynamic surface and color.

Ash

Beach

Concrete

Marble

SEOUL

GRADE 50

82% Polyester 18% Cotton

Cleaning Code: W

Martindale:40,000 cycles

Seoul is a true Velvet, a luxurious look and feel. The pile weaving construction allows the yarns to reflect light in many shades, creating an inherently dynamic surface.

BOUCLE

GRADE 70
34% Viscose, 35% Acrylic, 15% Cotton, 10% Polyester
Cleaning Code: D
Martindale: 25,000cycles

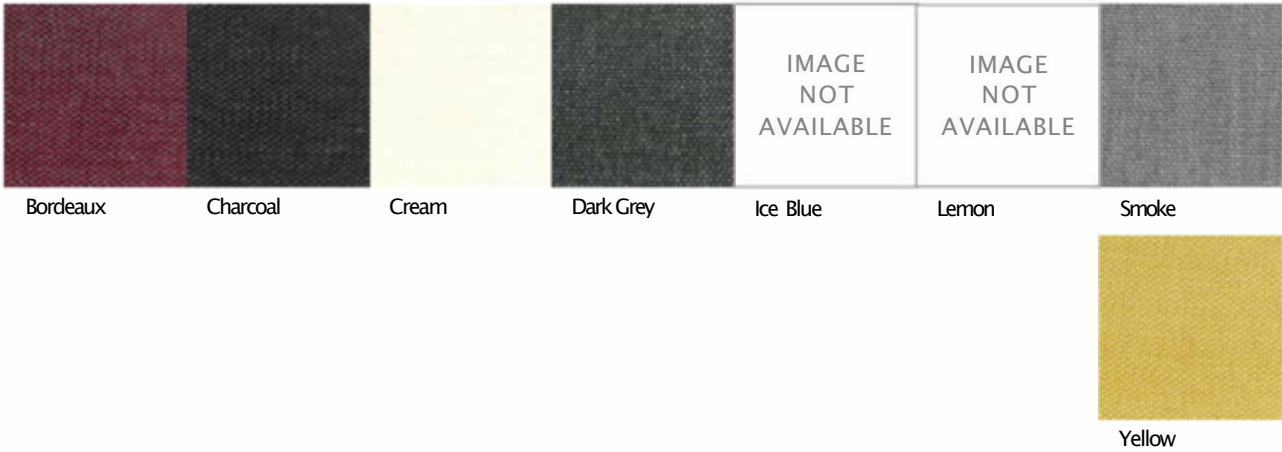

French meaning "curled" or "ringed", boucle can refer to a yarn, made from series of looped fibers. A cozy 'hubby' fabric on 19th-century furniture.
Performance Finish: CO, water-repellency

MARIA

GRADE 70
40% Viscose, 35% Acrylic, 15% Cotton, 10% Polyester
Cleaning Code: D
Martindale: 40,000cycles

A rich fabric featuring a viscose 'silk' quality.
Performance Finish: CO, water-repellency

COTTON DUCK

GRADE NA
Cleaning Code: W

Canvas fabric is known for being durable, sturdy, and heavy duty.
Available for the Chiara Chair sling lining only.

E03+ FABRICS

UNIFORM MELANGE GRADE F

68% Wool, 22% Polyamide, 10% Polyester, 2mmFoam

Cleaning Code: D

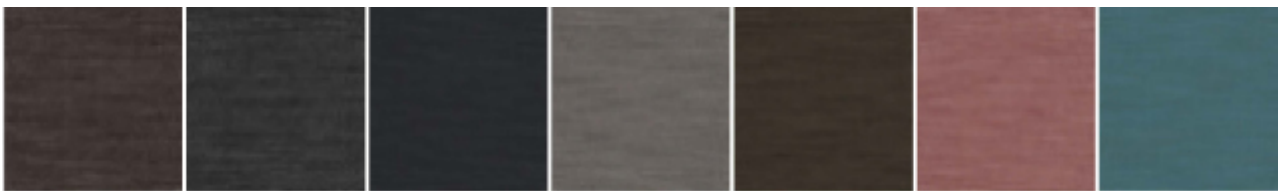

Martindale 80,000cycles

Uniform is knitted, rather than woven, from 75% wool. The surface layer consists of virgin wool, knitted in the Netherlands from various tones of yarns, resulting in a dynamic color depth that changes depending on the angle at which it is observed. The inherent stretch of knitted fabrics allows for draping over organic shapes without the need for seams.

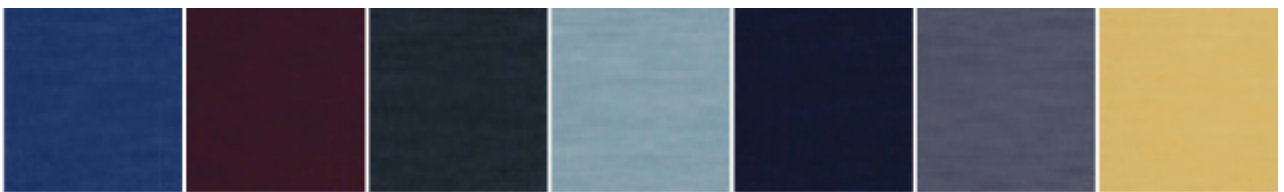

***Please note that once an order has been placed for UniformMelange, **IT CANNOT BE CANCELLED.**

E03+ FABRICS

APPAREL GRADE I
 21% Wool, 11% Polyamide, 7% Polyester, 60% Polyester Filling
 Cleaning Code: D
 Martindale: 80,000cycles

Apparel is a knitted, rather than woven fabric constructed of 75% wool. The surface layer consists of virgin wool, knitted from various tones of yarns. Knitted in the Netherlands, the asymmetrical large-scale embroidery pattern challenges the proportionality of shapes. The inherent stretch of knitted fabrics allows for draping over organic shapes without the need for seams.

***Please note that once an order has been placed for Apparel, **IT CANNOT BE CANCELLED.**

FABRIC CARE

Fabric Cleaning Codes

Fabric manufacturers recommend regular dusting and vacuuming. Removable cushions should be fluffed regularly. Soiled areas should be cleaned based on the following cleaning code(s) found on your EO3 product. If cleaning codes are not available, contact the retailer from where you purchased the product.

D Dry Clean Only

W Water Based Cleaner

Spot clean using only the foam from a water-based cleaning agent such as a mild detergent or non-solvent upholstery shampoo product. Apply foam with a soft brush in a circular motion. Vacuum when dry.

S Solvent Based Cleaner

Spot clean using mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing Carbon Tetrachloride or other toxic materials.

WS Water/Solvent Based Cleaner

Spot clean with a mild solvent, an upholstery shampoo or the foam from a mild detergent. When using a solvent or dry cleaning product, follow the instructions carefully and clean only in a well-ventilated room. Avoid any product that contains Carbon Tetrachloride or any other toxic materials

Testing Note:

Both Wyzenbeek and Martindale are abrasion/rub tests. Wyzenbeek involves rubbing along the warp and weft of the fabric whereas Martindale is a figure-8 rub. Actual performance is determined by many factors such as fiber content, weaves, finishes, furniture design, maintenance, cleaning, and usage.

Wyzenbeek is regularly used for synthetic fibers, while Martindale is typically used on wool and natural fibers. Respectively, furniture manufacturers in the United States apply the Wyzenbeek test more commonly and European companies more frequently use Martindale.

Performance Finish Note:

CO is breathable water repellent technology that is fluorine free. Select fabrics offer this coating to help spills stay at the top of the fabric for ideal cleanability; Note dyes in spills are fast acting and the coating only helps delay the absorption. Owners will still want to clean spots immediately.

C6 is a water and oil repellent that works quite effectively, also helping spills stay at the top of the fabric for ideal cleanability.

Warranty:

EQ3 fabric products are warranted against wear under normal care and conditions for a period of one (1) year.

LEATHER CARE

Semi-Aniline finish and Pigmented finish

Clean with a mild soap and water solution. Use a mild soap with a neutral pH. Rinse with a clean, damp cloth to remove any soap residue. Do not use a soap product that is harsh on your skin, as it will be harsh on the leather. Always test soap solution on a small, unseen area of the leather to ensure that the solution does not damage the leather (there should be no colour transfer onto your cloth).

Pigmented leather is buffed or corrected to reduce and conceal natural markings or blemishes. Leather with this type of topcoat will provide excellent wear well if maintained properly.

- Excellent durability with minimal maintenance

- Minimal colour variation

- Most practical, least likely to fade or stain

Semi-aniline leathers offer good medium protection from day-to-day use. Semi-aniline leather may be slightly buffed, but no pattern or embossing has been used to alter the texture

- Medium protection

- Light topcoat helps control fading

- Softens and relaxes, without affecting wear, but rather increasing comfort

Full-Aniline finish, Aniline finish, and Aniline dyed

Clean only with a lightly dampened cloth. Do not use any type of soap on natural (aniline) leathers.

Full aniline is regarded as the highest quality of leather, often seen as the most authentic. Full aniline leather will show all natural marks, grain and colour variation.

- Most natural looking

- Develops a beautiful patina over time

- Superbly soft and supple with rich, penetrating colour

- Direct exposure to sunlight or heat sources, will result in fading or discoloration

Warranty:

E03 leather products are warranted against tearing and splitting for a period of five (5) years.
